

CHECKLIST

Developing a Team Vision

A vision is something that describes:

- Where you want to be
- What you want to create
- What you can commit to
- What you believe in

- It is timeless
- It is Collective aspirations
- It is a Shared commitment
- It is the Passion of Vision

Example of a Value statement, (this can help in determining the Vision):

"We, as a Team, committed to the following at place x on y date:

- We will use the "right" language in all our external dealings with others
- We will be "open" with each other in the team
- We will support each other, especially in front of others
- We will have the confidence to confront each other
- We will deliver Quality Training
- We will determine what the Trainer Standards will be and ensure we all follow these

This listing is a starter and will be developed further, as we all continue to learn and to develop"
